

Come to Zion Ministries started Inspired Faith Internet Broadcasting Network in November 2003. Essentially we started IFBN Radio to learn how to help other Ministries use the internet as a teaching and outreach tool.

We run our own internet radio station 24/7 with Praise and Worship music plus teachings in English, Hebrew, French and Russian. We also have live talk shows with listener participation in English and Russian.

Our radio station reaches over 105 countries including listeners in Iran, Egypt, Saudi Arabia, UAE as well as the Far East and all of the Western Hemisphere.

We offer to all ministries and congregations here in Israel the opportunity to broadcast their messages at no charge. We also have programming from other countries.

In cooperation with Out of Zion Ministries and David Silver, we have started internet tv broadcasting. We have helped other ministries learn how to use this as a tool for long distance teaching.

CTZ has a Windows Media Server and a Web site hosting server. These services and our help is available to all congregations and ministries in Israel.
